COLLEGE

Uniasselvi University		Julho 2020 – Junho 2025
-Software Engineer		

MAIN SKILLS | RESUME

React | Node | Next | Shopfy.liquid | Git.Github

My name is Henrique. I'm an experienced front-end developer,
with more than 3 years of experience in software development
Responsive and interactive interfaces for web and mobile. My
skills include HTML, CSS, JavaScript, React.js, React Native,
TypeScript, Python, PHP, Laravel, Angular and other tools
front-end development (Bootstap, Tailwind, Figma, Wordpress).

I'm passionate about creating engaging user experiences and
effective and, throughout my career, I have delivered successful projects for clients in a variety of industries, including retail,
finance and health. My projects include a responsive ecommerce application focused on sales conversion, a
online banking website with a focus on usability and a
performance-focused health monitoring app.

My approach to work involves a combination of
agile methodologies (Scrum and Kanban), as well as the use
of tools like GitHub, Bitbucket and Trello, design-centric
user-friendly and rigorous testing. I always strive to provide
high-quality solutions that exceed customer expectations.
